DETAILED ACTION

Response to Amendment

1. The amendment received on 11/09/2004 has been reviewed and considered with the following results:

As to the objection to claim 2, Applicant's amendments have overcome the objection, as such, the objection has been withdrawn.

As to the rejection to the claims, under 35 U.S.C. 112, 2nd paragraph, Applicant's clarifications have overcome the rejections, as such; the rejections have been withdrawn.

As to the prior art rejections to the claims. Applicant's arguments and amendments have overcome the rejections, as such; the prior art rejections to the claims made in the previous. Office Action mailed on 9/27/2004 are now withdrawn. Therefore, the case is now found to be in allowance condition for the reasons as set for below.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or fairly suggest a multiphase clock generator and a method of operating a multiphase clock generator (as shown in Fig. 1) having specific limitations directed to a second clock divider (104) connected to an output port (180) of the first logic gate (126, 130), the second clock divider for generating a second-phase clock signal (PH2) from the first input clock signal (clk); a second logic gate (142, 154) connected to an output port (138) of the second clock divider; and a third clock divider (106) connected to an output port

Art Unit: 2816

(182) of the second logic gate, the third clock divider for generating a third-phase clock signal (PH1) from a second input clock signal (clk); and being configured in combination with the rest of the limitations of the base claims and any intervening claims.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai L. Nguyen whose telephone number is 571-272-1747 and Right Fax number is 571-273-1747. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan can be reached on 571-272-1740. The official fax phone number for the organization where this application or proceeding is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 571-272-1562.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
